

2008 - 2009

January Meeting Notice

Minnesota Geotechnical Society

Concrete Paving Technologies – An Overview of Standard and Pervious Concrete Pavements

**Dave Fennessey with Aggregate Ready Mix Association of Minnesota
and
Jason Kruger with North Central Cement Council**

Conventional and pervious concrete can yield additional business and growth opportunities for geotechnical engineering firms from design to testing. Concrete parking lots and pervious concrete are sustainable, cost competitive (first costs), easily designed and yield higher returns for property owners and developers.

Business opportunities, design methodologies and local case studies, both new and old, will be presented.

Date: Wednesday, January 14, 2009
